DONNIE BARNETT TO DISCUSS HEDGEHOG CACTI AT OCTOBER MEETING

Mojave Claret Cup Cactus - *Echinocereus mojavensis*
Photograph by Donnie Barnett
(from his website)

Our speaker at the October 14 meeting will be Donnie Barnett from Las Vegas, NV. Donnie will present a program featuring one of our favorite cacti, the lovely Claret Cup Cactus, aka *Echinocereus triglochidiatus* var. *mojavensis*. Actually his presentation will feature ten different members of the Claret Cup Cactus 'clan'. Claret Cup cacti are part of a much larger group of cacti in the genus *Echinocereus*, commonly known as hedgehog cacti. Also included in this group is another local favorite, the 'Spineless Hedgehog', aka *Echinocereus triglochidiatus* var. *mojavensis* f. *inermis*.

His discussion will be focused on the Claret Cup Cacti, the red flowering hedgehog cactus complex of the American deserts. He will cover their habitats, growth & flowering habits, ranges, and where you can see these wonderful plants. Species to be addressed include; *Echinocereus coccineus*, *E. triglochidiatus*, *E. mojavensis*, *E. yavapaiensis*, *E. canyonensis*, *E. arizonicus*, *E. polycantha*, *E. pacificus* and *E. X roetteri*.

Donnie works at the Las Vegas Springs Preserve (springspreserve.org) and is responsible for maintaining their seed repository along with an ever growing cactus collection.

Donnie's *hobby du jure* is photography. He has opened a new website donnie-barnett.artistwebsites.com which features many of his photos. This site shows a number of posters and postcards which Donnie will have on display and available for purchase at the October meeting. He and his camera are also employed by several local landscaping firms in the Las Vegas area.

Those of you who attended Donnie's outstanding presentation in September 2009 that featured cacti & succulents of the Mojave & Great Basin Deserts know that this will definitely be another 'must see program'!

CHINLE GARDENERS "DO IT" IN THE RAIN!

Per Don Campbell, "You gotta admit the similarities are uncanny...."

Remember Debbie Reynolds, Gene Kelly and Donald O'Connor starring in the classic musical comedy, "Singing in the Rain"?

Well, here are (L to R) Bob Bubel, Maryann Benoit & Tom Burrows, starring in the latest, 2010 hit, "Gardenin' in the Rain" on 9/8/10 at the WCBG.

Chinle Garden participants on Sept. 18th were Tom Burrows, Pat Severson, Maryann Benoit, Don Campbell, and Nancy Glover. Sept. 28th gardeners were Peter Newberry, Maryann Benoit, Tom Burroughs, and Isaiah Newberry (who may go down in the Chinle Book of World Records as the youngest spurge fighter in history).

FIELD TRIP TO FRUITA RESEARCH CENTER PLANNED FOR OCT 23RD, OCT 18TH

Morgan Williams, CEO of Flux Farm Foundation; and Dr. Calvin H. Pearson, Professor, Colorado State University Research Center in Fruita, have invited the Chinle C&SS to tour their research facility to view the successful planting of Opuntiae collected by Williams and members of the Chinle C&SS earlier this summer. Those interested in touring this facility, please contact Don Campbell, Carolyn Logan, or any of the Chinle C&SS Board member to join the tour.

The plan is to meet at the Western Colorado Research Center, 10 am, on Saturday, October 23rd. The Research Center is located at 1910 L Road, in Fruita.

Opuntia happily growing at the Fruita Research Center.

EXCELLENT ATTENDANCE AT SEPTEMBER PROGRAM

Pres. Carolyn Logan greets a large crowd at the Sept. meeting.

Almost 50 Chinle C&SS members and guests attended the September 9th meeting and were entertained and informed with Woody Minnich's fascinating presentation on his trip to Brazil in the Rio Do Sul region. His presentation was accompanied by lovely, professional-quality photographs. In addition, he brought a unique selection of plants for purchase from his greenhouse operation, to include

a half-dozen beautiful plants donated to the club for monthly silent auctions or drawings.

Chinle members and guests admire the many unique plants Woody brought to the meeting.

Guest speaker, Woody Minnich, chats with Carolyn Logan, Sallie LaHue & Sue Francis.

DIAMOND IN THE ROUGH

By Don Campbell

"I know, I know...it's a real stretch to call it a diamond in the rough when the fact is it's just a weird cactus in flower. As you may suspect, I took a few liberties with the dictionary excerpts shown below..."

diamond - noun 1. in extended and metaphorical use with reference to the brilliance, form....

rough - adjective 1. uneven, irregular, bumpy, lumpy, knobbly....

This cactus a diamond? Yes, definitely!

SPECTACULAR BLOOMING AGAVE

Jeff Brimley sent Don Campbell a photo of his "Agave utahensis kaibabensis", that produced an amazing bloom in July of 2010. The 14'-6" stalk formed over a two week period. Here are photos of the stalk and up-close bloom.

CHINLE C&SS SURVEY

At one of our last CCSS meetings, Member-at-Large, Maryann Benoit handed out a survey for members to give the Chinle Board feedback on programs and activities of the organization to help with planning for the 2011 season. Several members completed the form and turned it in, but many did not. The Board would like as much feedback as possible and requests that if you didn't complete the survey, you complete the survey below. You can copy the survey form, then email it to Maryann at mxbenoit@bresnan.net.

GREAT NEW BOOK ON CACTI AVAILABLE

Ad and Gertrud Konings of El Paso, TX, have released a new book, "Cacti of Texas in their Natural Habitat" available at <http://www.elpasodesert.com> and <http://www.amazon.com>, published by Cichlid Press, for \$59.99. You can read a short piece about Ad and Gertrud in the El Paso Times ("Prickly Passion", Living Section, Feb. 23, 2010, at www.elpasotimes.com/livig/ci_14449675 .

Quiz: Can you find the "eat & run" gardener at the 9/18 Garden Party?

Hint: The one in green with the strategically placed croissant.

MEMBER SHARES CREATIVE STREAK

Jeff Brimley, Chinle member from Bountiful, UT, is a multitalented cactophile. He has created a fountain, and each year adds something new. This year it is a new Teacup Water Wheel. To see a little video of this unique creation, follow the link to a U-Tube video:

LOVELY CACTI FLOWERS, COURTESY OF DON CAMPBELL'S CAMERA,

Ariocarpus retusus

Ariocarpus Trigonus

Astrophytum asterias "Super Kabuto".
Hard to beat those Japanese cultivars!

Opuntia Sulfurea
This gorgeous apricot orange prickly pear flower
is definitely my favorite color.

ON THE LIGHTER SIDE

Have you ever wondered....?

What hair color do they put on the driver's licenses of bald men?

Why do "overlook" and "oversee" mean opposite things?

Why is a person who plays the piano called a pianist, but a person who drive a racing car not called a racist?

If a pig loses its voice, is it disgruntled?

If love is blind, why is lingerie so popular?

Do infants enjoy infancy as much adults enjoy adultery?

If people from Poland are called Poles, why aren't people from Holland called Holes?

Ariocarpus fissuratus

AND.....

What the well-dressed cactophile should wear.
